Speaker

Heather Goodall, MSN, RNC-NIC, IBCLC

Heather has spent all but two years of her nursing experience in neonatal intensive care. She earned her BSN from Colorado Mesa University and her MSN: Leadership in Health Care Systems with a certificate in healthcare education from Regis University. Heather is certified in neonatal intensive care and as a lactation consultant and is also active as an NRP regional trainer and S.T.A.B.L.E. lead instructor. She is currently a NICU clinical educator at a large, tertiary children's hospital.

Heather's experience includes positions at NICUs in Colorado, Texas and California, as well as serving as a clinical faculty member for both ADN and BSN nursing programs. With this variety of exposure to different work environments, she has been able to incorporate her experiences into the rich discussions that occur during educational presentations

MED-ED reserves the right to substitute an equally qualified speaker if necessary.*

Course Overview

This course is designed for nurses who wish to take the NCC Certification Examination to obtain RNC-LRN designation. The course will focus on core concepts that are essential for caring for low-risk newborns. Course content has been designed specifically around NCC test content outlines and competency statements. Preparation is recommended prior to participation in this course. Recommended study resources, exam outlines and associated competencies can be found online at www.nccwebsite.org.

Program Learning Outcomes

This program prepares the learner to:

- Describe the Low Risk Neonatal Nursing Exam, test plan and the practice requirements to sit for the exam.
- Construct a study plan for the exam based on understanding the blueprint and domains of practice covered.
- Identify common mistakes and pitfalls that are made during studying and testing for the exam.
- Recall the core components covered in the exam through didactic supplementation and test questions.
