Speaker

Robert J. Dorman, DNP, RN-BC, CCRN, C-NPT, CNL

Robert earned his bachelor's from the University of Rochester School of Nursing in 1993. He began as a pediatric nurse and transferred to the pediatric ICU in 1995. In 1998, he relocated to pursue a career as a pediatric transport nurse at the University of Maryland Medical Center and Johns Hopkins Hospital. Returning to Rochester and the PICU in 2004, Robert assisted leading the pediatric transport team and was instrumental in creating a free-standing pediatric transport team at Golisano Children's Hospital.

In 2013, he became a full-time faculty member at the University of Rochester School of Nursing. He currently serves as the pediatric trauma program manager at Golisano Children's Hospital at the University of Rochester Medical Center.

Course Description and Program Learning Outcomes

The purpose of this review is to assist the participant in preparing for the Pediatric CCRN Exam. This course preparation will use a systems approach to review the essential aspects of nursing care in the Pediatric Intensive Care Unit. Teaching methods to be utilized during this review include lecture, case studies, discussion and practice questions. The information provided will benefit the critical care nurse through the enhancement of knowledge concerning the continuum of care for the pediatric critical care patient.

Program Learning Outcomes

This program prepares the learner to:

- Review test-taking strategies.
- Review the AACN Synergy Model.
- Review critical physiology of each core body system.
- Discuss significant assessment and diagnostic findings for each core body system.
- Discuss etiology, pathophysiology, clinical presentation, diagnostic findings and specific patient management of commonly seen critical care conditions.
