Speaker

Mary Ann "Cammy" Christie MSN, APRN, CCRN-CMC-CSC, PCCN

Cammy is an internationally known speaker with over 45 years of critical care experience. She has taught the CCRN® Exam Review as well as critical care updates with an emphasis on the critical thinking skills of the bedside practitioner. In addition to lecturing across the globe, Cammy is a reviewer for several revered nursing journals, has numerous publications in the area of critical care and continues to have an active practice as an acute care nurse practitioner at the University of Florida, Division of Critical Care Medicine, Cardiothoracic Surgery. As a critical care nurse practitioner, Cammy brings many clinical practice skills to her lectures as well providing clinical pearls for bedside care.

MED-ED reserves the right to substitute an equally qualified speaker if necessary.

Course Overview

This condensed, detailed review of AACN's blueprint for the CCRN Certification Examination is designed for the critical care nurse preparing for the examination. The instructor will provide a lecture format covering anatomy and physiology, assessment (including hemodynamics and utilization of noninvasive and invasive monitoring tools) and pathophysiology in a systems approach. Topics include: cardiac, pulmonary, neurology, renal, endocrine, hematology, gastrointestinal, psychological and legal aspects of care. This review is not an introduction to the critical care environment, but a comprehensive overview of information for the nurse preparing for the CCRN Examination.

Program Learning Outcomes

This program prepares the learner to:

- Discuss and practice test-taking skills.
- Review critical anatomy, physiology and pathophysiology of each system.
- Discuss significant assessment and diagnostic findings relevant to the critical care environment.
- Discuss clinical presentation as well as specific patient management of commonly seen critical care conditions.
