## Speaker

### Melissa Allen, MSN, NNP-BC, FNP-C, RNC-OB, RNC-MNN, C-EFM

Melissa has a combined 30 years of clinical and instructional experience in all areas of maternal-neonatal nursing. She received her BSN from the University of Alabama in Huntsville, her MSN from the State University of New York at Stony Brook and a post-master's certificate as a family nurse practitioner from Middle Tennessee State University in Murfreesboro.

She has held faculty positions at Motlow State Community College and Vanderbilt University School of Nursing, teaching maternal-child nursing in the classroom and clinical setting. She now practices as a neonatal nurse practitioner (NNP) for Children's Hospital and Clinics in Minneapolis, MN. She has traveled extensively as an advanced practice nurse and has had the opportunity to work in a variety of maternal-infant environments.

## Course Overview

Presented in lecture format, this course reviews topics for the Maternal Newborn Nursing Exam by the National Certification Corporation (NCC). Elements of the examination are discussed, followed by a review of the content. The major components include disease processes during pregnancy, maternal and fetal complications, postpartum and neonatal assessments. Practice questions are integrated throughout the presentation.

### Program Learning Outcomes

This program prepares the learner to:

- Describe the Maternal Newborn Nursing Exam, test plan and the practice requirements to sit for the exam.
- Construct a study plan for the exam based on understanding the blueprint and domains of practice covered.
- Identify common mistakes and pitfalls that are made during studying and testing for the exam.
- Recall the core components covered in the exam through didactic supplementation and test questions.
