## Course Overview

This course is designed to provide the practicing case manager with information to assist him or her in preparing for the CCM Exam and can serve as a review for the ACM and ANCC certifications. The content is also appropriate for those who are seeking a basic course in case management practice.

The content of the course is based on feedback from course attendees as well as CCMC's list of content areas and is updated every 4 months.

The course includes:

- A 300-page course manual, covering the content of the course plus resources for further self-study
- Overview of the CCM process and exam
- Intensives in core concepts, public benefits and workers' compensation
- 130+ sample exam questions
- Self-assessment design

### Program Learning Outcomes

This program prepares the learner to:

- Obtain knowledge of concepts related to case management practice in addition to the essential knowledge areas for case management practice as identified by the CCM Commission and national standards.
- Describe the process for the CCM credential.
- Gain insight and resources for any further self-study needs for the CCM Exam.
