Speaker

Terry Lynch, MSN/Ed., RN, CCRN, PCCN

Terry has nearly 30 years of experience in caring for the critically ill patient in various specialty areas that include cardiovascular medicine and surgery, neuro, pulmonary, renal and trauma care. In addition to teaching the CCRN Certification review course, he has provided continuing education classes on several topics that include 12-Lead interpretation, ABGs and ventilators, radiographic interpretation essentials, hemodynamics, Rapid Response teams, neurological and neurosurgical care. Terry is a member of the American Association of Critical-Care Nurses (AACN) and the Association of Nursing Professional Development (ANPD). He is able to make the most difficult concepts easy to understand by the beginner as well as the advanced practitioner and is best known as a master clinician and dynamic speaker who uses humor and real-life situations to give his topics meaning and depth.

MED-ED reserves the right to substitute an equally qualified speaker if necessary.

Course Overview

This comprehensive day course will provide the bedside nurse and members of the rapid response team (RRT) with the tools necessary to recognize clinical deterioration and avert failure to rescue. The course will begin with an overview of the rapid response system (RRS) and the subsequent development of an RRT. This is followed by an overview of the roles for the bedside caregiver and members of the RRT. Detailed scenarios will be presented that will challenge the attendee to critically think through the process of assessment, identification of the problem and then strategies for management.

Program Learning Outcomes

This program prepares the learner to:

- Identify early warning signs of clinical deterioration.
- List the indicators for the implementation of the RRS.
- List appropriate assessment and differentials for selected clinical crises.
- Discuss current evidence-based management strategies.
- Evaluate current research results for the RRS.

Agenda

Rapid Response: Avoiding Failure to Rescue Webinar

Sign-in begins at 7:30 am.

Includes a one-hour lunch (on your own), as well as a morning and afternoon break of 15 minutes each. The order of lectures presented and break times may vary according to speaker preference.
