## Speaker

### Michelle Dickerson, PhD(c), RN, RNC-NIC, RNC-MNN, RN-BC, CBC

Michelle has been a child health nurse for almost 20 years. She has practiced bedside at a Level 3 NICU and with mother and baby for over 10 years. She has also served as a nurse educator for maternal child health for almost 10 years. Additionally, she has been a clinical instructor for maternal child health and pediatrics and has taught courses at several state universities. Michelle graduated from the University of Phoenix with her BSN in 2007 and her MSN in Nursing Education in 2012. She is certified in high-risk neonatal intensive care nursing and in maternal child health nursing. She is part of the Academy of Neonatal Nurses, National Association of Neonatal Nurses (NANN) and the National Association of Neonatal Nurses Education Provider Committee.

*MED-ED reserves the right to substitute an equally qualified speaker if necessary.*

## Course Overview

Presented in lecture format, this course reviews topics for the Maternal Newborn Nursing Exam by the National Certification Corporation (NCC). Elements of the examination are discussed, followed by a review of the content. The major components include disease processes during pregnancy, maternal and fetal complications, postpartum and neonatal assessments. Practice questions are integrated throughout the presentation.

### Program Learning Outcomes

This program prepares the learner to:

- Describe the Maternal Newborn Nursing Exam, test plan and the practice requirements to sit for the exam.
- Construct a study plan for the exam based on understanding the blueprint and domains of practice covered.
- Identify common mistakes and pitfalls that are made during studying and testing for the exam.
- Recall the core components covered in the exam through didactic supplementation and test questions.

## Registration Information

**Tuition** Includes Program Manual and CE Certificate
