Speaker

Kristen Luttenberger, MSN, RN, CCRN-CMC, PCCN, APN-C

Kristen's professional experience includes working as an RN for nearly 25 years in the pediatrics, medical-surgical, telemetry, intensive and coronary care areas. She has served as a nurse educator for her entire career, currently works as a full-time cardiac nurse practitioner and has also been a collegiate adjunct professor. Kristen is currently triple certified with critical care clinical certifications, along with her nurse practitioner license, and prides herself in working with critical care and progressive care nurses at the bedside and sitting for those certification exams every 3 years.

*For complete biography, please visit MedEdSeminars.net
MED-ED reserves the right to substitute an equally qualified speaker if necessary.*

Course Overview

This two-day CCRN/PCCN Review is designed for the critical care or progressive care nurse preparing to take either exam from the American Association of Critical-Care Nurses (AACN). The review focuses on anatomy, physiology, pathophysiology and disease management according to the AACN test guide for each exam. Each system review will be followed with sample test questions along with test-taking strategies.

Program Learning Outcomes

This program prepares the learner to:

- Demonstrate the knowledge and confidence to successfully pass the CCRN or PCCN Certification Exam.
- Deduce significant assessments, diagnostic findings, clinical presentations and management strategies of critical care and progressive care patients.
- Solve and evaluate critical-care exam questions.
