Accreditation

RN/LPN/LVN/Other: 13 Contact Hours

MED-ED, Inc. is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation (ANCC).

MED-ED, Inc. is an approved provider by the following State Boards of Nursing: **Florida**/FBN 50-126, **Iowa**/296, **California**/#CEP10453.

Speaker

Jeremy M. Johnson, DO, PhD(c), MS, MSc, BSN, RN, CEN, CCRN-CMC, CFRN, TCRN

Jeremy has spent the last 15 years teaching test prep courses as well as a variety of lectures in critical care and emergency nursing in hospitals and nursing schools. He has spent the majority of his career working at the bedside in various emergency and critical care settings, as well as obtaining several postgraduate degrees in various fields of biology. Jeremy has reviewed several critical care textbooks and contributed to numerous medical and nursing publications in the area of Critical Care and Emergency Medicine. To date, while keeping an active nursing license, Dr. Johnson also works as a practicing Internal Medicine physician and Chief of Aerospace Medicine in the USAF. Jeremy brings clinical and academic experience and knowledge to his lectures. He is also known for his ability to communicate complex physiology and anatomy in a humorous and easy to learn manner.

MED-ED reserves the right to substitute an equally qualified speaker if necessary.

Course Overview

This seminar is designed to assist the nurse and other healthcare providers by giving them the knowledge to manage the patient in cardiopulmonary crisis. The presentation will focus on an overview of cardiopulmonary physiology, the management of hemodynamics specific to patients with cardiopulmonary disease, and the medical and surgical management of these patients.

Program Learning Outcomes

This program prepares the learner to:

- Review cardiac and pulmonary assessment skills in the critically ill patient.
- Define ACS and discuss the complex medical/surgical treatment plan of care of the adult patient.
- Define neurohormonal pharmacological intervention in the patient with HF.
- Discuss the etiology of ARDS, and the treatment regimen in the multisystem failure patient.
- Review the mechanism of pulmonary embolism and pneumonia in the critically ill patient.
- Discuss ventilatory management skills required in the mechanically ventilated patient.
