

Course Description

This course is designed for nurses working in the perioperative setting who plan to take the CNOR Certification Exam. The course will focus on core concepts defined by AORN® while caring for all populations. The CNOR Test Blueprint published by CCI® is used to design the course content to enhance the nurse's knowledge of key information needed to successfully pass the CNOR Certification Exam.

Program Learning Outcomes

This program prepares the learner to:

- Describe the CNOR Exam, test plan and the practice requirements to sit for the exam.
- Construct a study plan for the exam based on understanding the blueprint and domains of practice covered.
- Identify common mistakes and pitfalls that are made during studying and testing for the exam.
- Recall the core components covered in the exam through didactic supplementation and test questions.
