Speaker

Missam "Sam" Merchant, MBA, BSN, RN, CENP, CCRN-K, PCCN, CV-BC, GERO-BC, MEDSURG-BC, NE-BC

Missam Merchant is a hospital supervisor at University Health System in San Antonio, TX, responsible for the centralized operations team, bed planning and EPIC grand central clinical implementation. He is a healthcare executive with more than 12 years of progressive leadership experience in coordination of patient care, quality, efficiency improvement and managing clinical operations with fiscal responsibility. He has expertise in managing a diverse staff of healthcare professionals, demonstrating effectiveness in team building and managing medical staff relations, recruitment and employee engagement.

In his leadership and clinical roles, he continually establishes standards of safety and operational efficiencies along with ensuring quality patient care. Though he is a leader at work, he is an educator at heart, working as an independent certified speaker, coach and teacher. .

MED-ED reserves the right to substitute an equally qualified speaker if necessary.

Course Overview

This two-day course is designed to provide nurses with the tools, confidence and knowledge to successfully complete the Medical-Surgical Nursing Exam. The exam content outlines and blueprints from the ANCC and MSNCB were used to develop this program. Topics covered from the exam content outlines will include: review of body systems, cardiac, pulmonary, neurologic, gastrointestinal, renal, genitourinary, reproductive, endocrine, hematologic, musculoskeletal, immune and more. Pathophysiology of disease processes including signs and symptoms and treatment modalities will be presented. The nursing process and nursing practice roles in the management of patient care will be discussed through case scenarios and sample questions. All aspects of the Practice Domains will be addressed at the end of Day 2 and strategies for test-taking will also be covered.

Program Learning Outcomes

This program prepares the learner to:

- Gain an in-depth knowledge of the pathophysiology of disease states in the medical and/or surgical patient as well as current management strategies.
- Gain the confidence to pass a medical-surgical exam.
