## Speaker

### Baron "Keith" Hood, MSN, NP-C, AAHIVS, CCRN, CFRN, CEN, FP-C, CMSRN

Keith has spent more than 20 years in patient care with a diverse clinical background, including in prehospital and air medical services, pediatric transport and ICU, CVICU, neuro ICU, medical and transplant ICU and as a clinical faculty member for BSN and NP students. He currently works as an ER nurse practitioner in a Level I trauma center and as a certified HIV specialist by the American Academy of HIV Medicine, along with maintaining patient care in a large patient-centered-care HIV practice, all while serving as an active flight nurse. Keith has been a guest lecturer, presenting on numerous clinical topics at prehospital and nursing conferences, both at the state and regional levels, in addition to facilitating and teaching a multitude of emergency, critical care and trauma courses.

*MED-ED reserves the right to substitute an equally qualified speaker if necessary.*

## Course Overview

This two-day course is designed to provide nurses with the tools, confidence and knowledge to successfully complete the Medical-Surgical Nursing Certification Exam. The exam content outlines and blueprints from the ANCC and MSNCB were used to develop this program. Topics covered from the exam content outlines will include: review of body systems, cardiac, pulmonary, neurologic, gastrointestinal, renal, genitourinary, reproductive, endocrine, hematologic, musculoskeletal, immune and more. Pathophysiology of disease processes including signs and symptoms and treatment modalities will be presented. The nursing process and nursing practice roles in the management of patient care will be discussed through case scenarios and sample questions. All aspects of the Practice Domains will be addressed at the end of Day 2 and strategies for test-taking will also be covered.

### Program Learning Outcomes

This program prepares the learner to:

- Gain an in-depth knowledge of the pathophysiology of disease states in the medical and/or surgical patient as well as current management strategies.
- Gain the confidence to pass a medical-surgical exam.
