## Speaker

### Melissa L. Weir, PhD, MSN, BSN, RN, CEN, CPEN, CNE

Dr. Melissa has earned a PhD in nursing education, a Master's degree in Science with a specialization in community-health nursing and nursing education. She has been a pediatric and adult-trauma ER nurse since 1990. Melissa has also practiced as a pediatric med-surg nurse as well as a home-health nurse. She has served as a clinical educator and an academic-nurse faculty member. Melissa is published as an item writer and editor for various CEN and CPEN certification review textbooks, and she has taught PALS, ACLS, ENPC, TNCC and CATN.

*For complete biography, please visit [MedEdSeminars.net](http://MedEdSeminars.net). MED-ED reserves the right to substitute an equally qualified speaker if necessary.*

## Course Overview

This course is a review of emergency nursing designed to assist the participant in successfully obtaining CEN certification. The course offers lectures, graphics, videos and practice questions in many of the areas that are tested on the CEN Exam. This review will provide not only a knowledge base for successfully completing the exam, but also a foundation for further study as the participant works towards emergency nursing certification.

### Program Learning Outcomes

This program prepares the learner to:

- Discuss priorities of the primary and secondary assessment of patients in presenting to the emergency department.
- Describe basic principles of disaster management.
- Analyze the effectiveness of patient or family education in a clinical scenario.
- Discuss the basic principles of safe interfacility transfer.
- Describe anticipated assessment findings of patients with selected respiratory, medical, cardiovascular, neurologic, toxicologic, gastrointestinal and genitourinary emergencies.
- Plan and prioritize interventions of patients with selected respiratory, medical, cardiovascular, neurologic, toxicologic, orthopedic, psychiatric or gastrointestinal emergencies.
- Describe basic principles of disaster management.
- Analyze the effectiveness of patient or family education in a clinical scenario.
