Course Overview

The nurse executive-advanced and nurse executive board certification examinations are competency-based assessments to validate knowledge related to the art and science of nursing leadership. Nurse executives taking this course will learn about operational structures and processes that support nursing excellence, exemplary professional practice, transformational leadership, knowledge management and the development of new knowledge and innovations.

Course Overview (cont.)

This course will not only prepare the nurse executive for a successful examination, but will also enable them to be a stronger nurse leader within their organization.

Eligibility

Who is eligible to take this exam? All requirements must be completed prior to application for the examination.

Nurse Executive, Basic Exam

- Hold a current, active RN license in a state or territory of the United States or the professional, legally recognized equivalent in another country.
- Hold a baccalaureate or higher degree in nursing.
- Hold at least 2,000 hours of experience in a leadership, management or administrative role with a primary responsibility for the daily operations and outcomes of one (1) or more unit(s)/ departments within the last three years.
- Completed 30 hours of continuing education in nursing administration within the last three years. This requirement is waived if you have a master's degree in nursing administration.

Nurse Executive, Advanced Exam

- Hold a current, active RN license in a state or territory of the United States or the professional, legally recognized equivalent in another country.
- Hold a master's or higher degree in nursing or hold a bachelor's degree in nursing and a master's in another field.
- Hold at least 2,000 hours of experience in a leadership, management or administration position, with primary responsibility for organization-wide or system-wide operations and outcomes, that include nursing within the last three years.
- Have completed 30 hours of continuing education in nursing administration within the last three years. This requirement is waived if you have a master's degree in nursing administration

Program Learning Outcomes

This program prepares the learner to:

- Apply principles of transformational leadership to advance the practice of nursing and achieve clinical and operational excellence within their organization.
- Identify strengths and areas of opportunity in preparing for board certification as a nurse executive.
- Develop a test plan strategy based on the review course and examination content outline to ensure success on the nurse executive examination.

Speaker

Megan O'Connor, DNP, RN, NE-BC

Megan has been a RN for over 19 years and has practiced in a variety of areas including medical-surgical, critical care, psychiatry, and logistics. Megan has a passion for leadership and has served in nursing-administration roles for the past 15 years. She completed her Master's program with a focus on interdisciplinary teamwork and nursing education and obtained her Doctorate at The University of North Carolina at Chapel Hill with a focus on administration. Megan serves as adjunct faculty with Chamberlain University working with students seeking their doctorate.

MED-ED reserves the right to substitute an equally qualified speaker if necessary.
