Speaker

Terry Lynch, MSN-Ed, RN, CCRN, PCCN

Terry has nearly 30 years of experience in caring for the critically ill patient in various specialty areas that include cardiovascular medicine and surgery, neuro, pulmonary, renal and trauma care. In addition to teaching the CCRN Certification review course, he has provided continuing education classes on several topics that include 12-Lead interpretation, ABGs and ventilators, radiographic interpretation essentials, hemodynamics, Rapid Response teams, neurological and neurosurgical care. Terry is a member of the American Association of Critical-Care Nurses (AACN) and the Association of Nursing Professional Development (ANPD). He is able to make the most difficult concepts easy to understand by the beginner as well as the advanced practitioner and is best known as a master clinician and dynamic speaker who uses humor and real-life situations to give his topics meaning and depth.

MED-ED reserves the right to substitute an equally qualified speaker if necessary.

Course Overview

This two-day course provides the critical care nurse with a review of AACN's 2020 core curriculum. The agenda combines central knowledge-based lectures for nurses working in the ICU with an essential review of nursing care and interventions according to the AACN exam blueprint for the critical care provider. This review is not an introduction to the environment of the ICU, but a comprehensive update for the professional already in practice at the bedside and preparing for the certification examination.

For attendees preparing to take the CCRN Exam:

This review course content follows AACN's updated 2020 CCRN Exam blueprint. Professional Caring and Ethical Practice (20% of exam) issues are addressed when appropriate throughout.

Program Learning Outcomes

This program prepares the learner to:

- Self-report a gain in knowledge of the critically ill patient and confidence to pass the CCRN Exam at an 80% rate.
